(Reorganized in 1920 under present management)

For Over 35 Years We've Been Serving

HOME OWNERS	CLUBS and LODGES
PARK DEPARTMENTS	CEMETERIES
PUBLIC INSTITUTIONS	NURSERYMEN
LANDSCAPE CONTRACTORS	
LANDSCAPE ARCHITECTS	
LANDSCAPE GARDENERS	
FLORISTS	

We deliver throughout New York, New Jersey,
Connecticut, and greater distances if requested.

Member of
N. Y. State Association of Nurserymen
L. I. Nurserymen's Association

CAUTION!

Most losses are caused by careless planting or lack of aftercare.

We have tried conscientiously to do our part well and give your plants the right start. Now it is up to you.

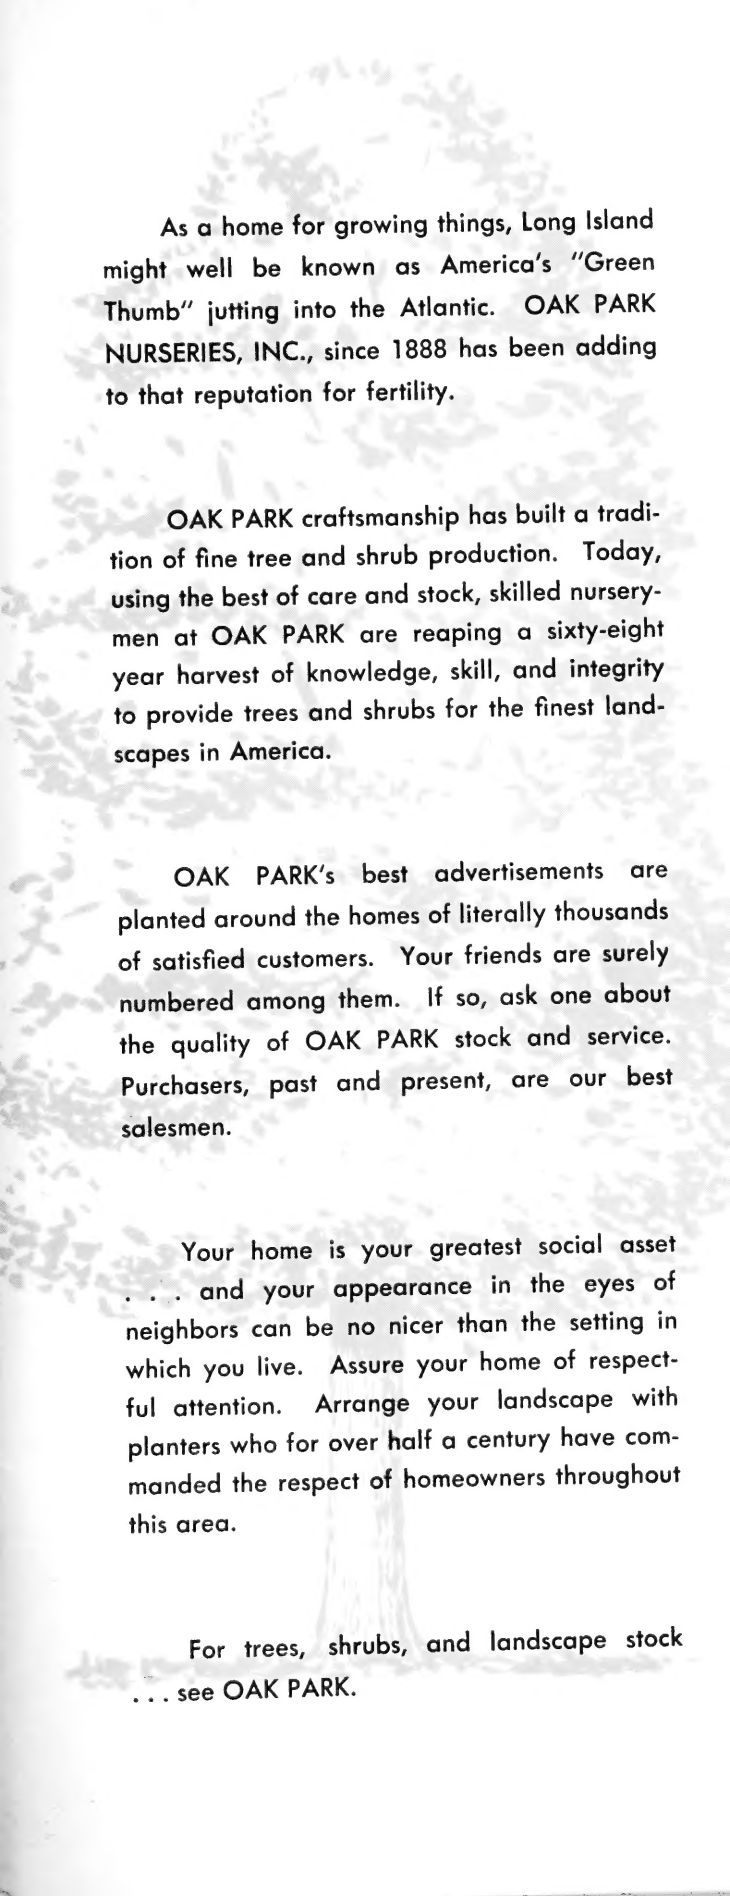

Never allow roots to dry out. If you can't plant at once, bury the roots of bare root plants, or place plants with a ball of earth in a cool, shady place and keep **moist**.

Plant in carefully prepared soil and dig hole at least 1 foot larger than ball or root spread. If soil is heavy due to clay, or light due to sand, add peat moss, leaf mold, or compost. Don't use chemical fertilizer in contact with roots. Organic fertilizer is always safer. We recommend Bovung or Agrinite.

Plant same depth as plants stood in nursery. (See soil line on trunk or stem). Spread roots out naturally and work soil in around them. Remove burlap carefully from balled plants, or containers from container grown plants. Firm the soil around the roots or ball, continually adding more soil until hole is almost full.

Fill hole with water repeatedly until all soil is settled. Then add loose soil or cover with mulch.

Water heavily once a week until well established, or throughout the first growing season. Water weekly during dry spells.

As a home for growing things, Long Island might well be known as America's "Green Thumb" jutting into the Atlantic. OAK PARK NURSERIES, INC., since 1888 has been adding to that reputation for fertility.

OAK PARK craftsmanship has built a tradition of fine tree and shrub production. Today, using the best of care and stock, skilled nurserymen at OAK PARK are reaping a sixty-eight year harvest of knowledge, skill, and integrity to provide trees and shrubs for the finest landscapes in America.

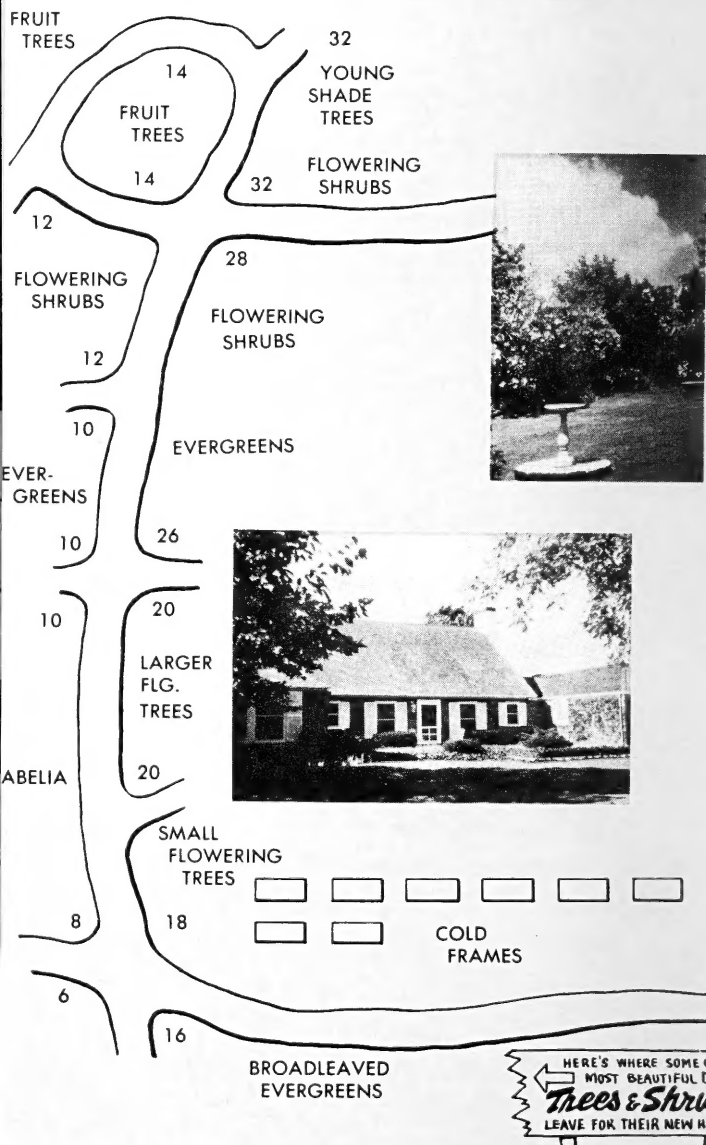

OAK PARK's best advertisements are planted around the homes of literally thousands of satisfied customers. Your friends are surely numbered among them. If so, ask one about the quality of OAK PARK stock and service. Purchasers, past and present, are our best salesmen.

Your home is your greatest social asset . . . and your appearance in the eyes of neighbors can be no nicer than the setting in which you live. Assure your home of respectful attention. Arrange your landscape with planters who for over half a century have commanded the respect of homeowners throughout this area.

For trees, shrubs, and landscape stock . . . see OAK PARK.

VISITORS ARE

OAK PARK's facilities cover an area of 70 acres. The tract is beautifully laid out, with a well marked visitor's route. May is the month for spectacular viewing, but at anytime of year the tour through provides a display of nature's beauty. OAK PARK is open to visitors

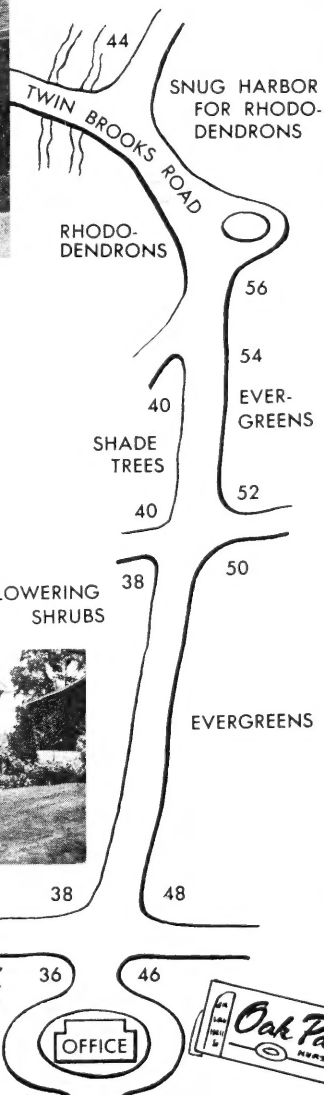

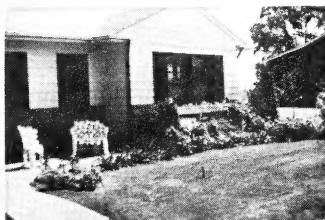

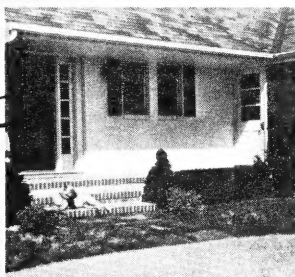

SOUTH COUNTRY ROAD

ALWAYS WELCOME

every day . . . the office is open every day except Sunday.

The photos below are examples of typical plantings by Oak Park Nurseries, Inc. . . . with trees and shrubs grown on our own 70 acre tract at East Patchogue, Long Island, N. Y.

Key to letters following plant names:

- BLE—Broad-leaved Evergreen
 DS—Deciduous Shrub
 DT—Deciduous Tree
 DVG—Deciduous Vine and/or Ground Cover
 EVG—Evergreen Vine and/or Ground Cover
 NLE—Narrow-leaved Evergreen

Heights given of trees (DT) are approximate and represent average heights. Some trees may fall short of specified heights, so caliper given shall govern.

Numerals following plant names indicate approximate height of plant at maturity.

CHOICE CONTAINER

Growing trees and shrubs in metal cans has been standard practice in California, Florida and Texas for years and the idea is fast "catching on" here. We have been growing plants in several kinds of containers for over three years now and we are very enthusiastic about the (1) better growth, (2) improved appearance, (3) easier, quicker, more economical handling, (4) extension of the planting seasons, and (5) reduced transplanting shock.

We don't anticipate becoming a "canned" nursery, but we do intend to increase our container production of certain plants and we are convinced that the idea is here to stay.

Like most other good ideas, there are some precautions

Abelia	Redbud
Crimson King Maple	Katsura Tree
Actinidia	Clematis
Akebia	Smoke Bush
Engelmann Creeper	Cotoneaster
Geranium Creeper	Flowering Quince
Flowering Peach	Daphne
Bearberry	Elaeagnus
Dutchman's Pipe	Wintercreeper
Crimson Pygmy Barberry	Forsythia
Butterflybush	Franklinia
Trumpet creeper	Silverbell
Bluemist	English Ivy
Bittersweet	Baltic Ivy
	Hydrangea

GROWN PLANTS

necessary and the most obvious one is to recognize the difference between plants actually grown and established in containers, ready to plant out with a good root system and every reasonable chance for success, and those plants that have been recently placed in containers and are being offered as container grown stock. It costs plenty of money to grow plants well in containers and they are priced higher than the others just mentioned.

If you haven't bought plants this way, why not visit our attractive container area and see for yourself? Here are some of the plants you may expect to find . . . See index for page numbers.

St. Johnswort	Fleecevine
Chinese Holly	Purpleleaf Plum
Japanese Holly	Oriental Cherry
Jasmine	Firethorn
Juniper	Roses
Crape Myrtle	Pussy Willow
English Laurel	Skimmia
Suwanee River Privet	Germander
Honeysuckle	Viburnum
Magnolia	Myrtle
Flowering Crab	Kemp Tree
Pachistima	Wisteria
Pachysandra	Yellowroot
Photinia	Fruit trees
Andromeda	

VISIT THE DISPLAY OF READY-TO-GO PLANTS

in our attractive new sales area near our office. You'll find a wide selection of the most popular shade and ornamental trees, flowering shrubs, vines, roses, and fruit trees, as well as fertilizers and peat moss to plant them. They're all ready to go with you without delay. Whether you come to buy or just to browse, you'll be welcome. All plants have large descriptive labels and price tags.

The Joy of Ownership

There is more than just ordinary pride in the possession of a fine tree. It belongs to the group of personal articles for which a person develops affection—his watch—a fine car—his dog. To the true lover of beauty a fine tree is like a picture or a beautiful sculptured piece in his home. Watching it grow and having it admired by friends is a joy. Caring for it is a happy occupation.

Here are some handy reference lists to help you select trees and shrubs for particular locations or purposes. Not necessarily listed in

Proper Planting Makes Homes Enchanting

One of the finest assets in society is a home that commands respect. One of the surest guarantees of a favorable first impression of your home is an OAK PARK landscape planting. OAK PARK has been growing high quality trees for over half a century. People who give preference to quality depend upon us because they know that, with reasonable care, an OAK PARK planting continues to look well and grow well for years to come.

HOW WE DO BUSINESS

. . . Some of the Services We Offer

**We try to Do Business the Way You Like It Done
—Not Just to Suit Us. Please Read Carefully.**

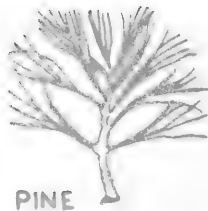

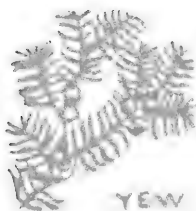

Consultation and Making of Plans:

For suggestions and advice by mail or at our office there is no charge. If you bring your property measurements and sketches or photos, we will be pleased to help you. However, as the time required to visit your property, take measurements and notes and prepare a detailed survey and plan depends upon distance and other conditions, it is impractical to quote costs beforehand. Often-times the cost of this service can be deducted if the resultant order justifies it.

Photographs:

If you are contemplating buying large trees and it's inconvenient for you to come to the nursery to see them, we will send you photos. We use the Polaroid-Land camera that takes and develops a picture in one minute, so they can usually be mailed to you the same day your request is received.

Prices quoted cancel previous quotations, are subject to prior sale and to change without notice. Prices are F.O.B. East Patchogue. Unusually heavy specimen plants will be priced proportionate with their values. On our invoices—

x= Heavy plant

xx= Extra heavy specimen

Terms are cash, excepting established accounts, to which we will gladly extend 30 days credit, or longer if specific arrangements are made at time of sale.

On orders entered one season but not filled until the following season (Spring to Fall, Fall to Spring), a 25% deposit is requested.

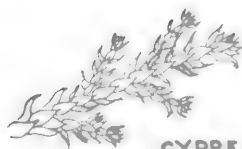

SCHEDULE OF BALLING CHARGES (B&B)

The specification "B&B" in this list signifies digging with ball of earth enclosed in burlap, which, where indicated, is included in the price. For digging all other plants B&B there is an additional charge as follows:

		5-6"	32.50
		6-7"	42.00
		7-8"	54.00

*Caliper means diameter of trunk 6" above ground on trees up to 6" caliper and 12" above ground on larger trees. Wherever given, use caliper sizes to determine B&B charges.

CYPRESS

Vines and Climbing Roses

Small	\$.75	Large	\$ 1.50
Medium	1.00	Extra Large	2.50

Length of Runners

2-3'	\$.75	6-8'	\$ 4.50
3-4'	1.50	8-10'	6.00
4-5'	2.25	10-12'	7.80
5-6'	3.50		

B&B Platforms: Charges for platforms will be rebated or credited to your account when they are returned to us in good condition at your expense. Send them by prepaid motor or rail freight if it is inconvenient for you to deliver them. Our platforms have a brass nameplate, so we will not accept others in exchange.

Platforms Charges

24" square	\$ 3.25	48"	\$15.00
30"	4.50	54"	20.00
36"	7.50	60"	30.00
42"	10.00	66"	40.00
72"			50.00

Packing and Boxing, where necessary, will be charged for at cost.

Shipment: We ship by our own trucks, motor and rail freight, railway express and parcel post. Delivery beyond local limits is charged for at cost.

Planting: We can furnish to a limited extent experienced planting foreman and plantsmen if you wish. The cost of this service is more than offset by the satisfaction of knowing that your plants have been given the right start.

Visitors are welcome at all times. You are cordially invited to walk or drive over our several miles of good roads and inspect our collection of hardy plants.

Responsibility and Standing: We refer you to the commercial agencies or satisfied customers in your vicinity, a list of which we will gladly send you on request.

Business Hours: We are open six days a week (not on Sunday) from 7 a. m. until 5 p. m. during our shipping seasons and from 8 a. m. until 4:30 p. m. during Summer and Winter. Closed at noon on Saturdays in Summer and Winter.

BUDGET YOUR PLANTING

Don't let the over-all cost, just because it may be more than you want to spend this year, keep you from enjoying the beauty of a new planting. It may be budgeted in one of two ways. Either do the entire planting and arrange payment terms to suit your convenience, or, working from a master plan, do one or more distinct sections at a time and pay as you go. Don't waste your time, efforts, and money by just "setting out" a few plants here and there. Work toward the ultimate completion of a well-defined plan and be assured that each plant will be placed in its permanent position at the outset and be part of a pleasing composition.

INDEX

Popular and Botanical Names

CONIFEROUS, OR NARROW-LEAVED, EVERGREENS (NLE)

	Page		Page
Abies	4	Larch	29
Arborvitae	49,50	Larix	29
Cedar	13,26,27,28	Picea	36,37
Cedrus	13,14	Pine	38
Chamaecyparis	14,15	Pinus	38
Cypress	14,15	Pseudotsuga	40
Fir	4,40	Spruce	36,37
Hemlock	50,51	Taxus	46,47,48
Juniper	26,27,28	Thuja	49,50
Juniperus	26,27,28	Tsuga	50,51
		Yew	46,47,48

BROAD LEAVED EVERGREENS (BLE)

Abelia	4	Laurel, Mountain	28
Andromeda	37	Leucothoe	29
Azalea	8,9,10,11	Ligustrum	30

NURSERIES, INC.

EAST PATCHOGUE, LONG ISLAND, N. Y.

GUARANTEE:

We guarantee every plant to be true to name, up to grade, and in good condition when it leaves the nursery. We will replace without charge any proved otherwise, provided it is reported promptly. We will replace at the first proper planting season at one-half original cost any plant sold at list prices and planted by us in a location approved by us that dies within six months provided it has received proper care and the account has been paid in accordance with our terms. The customer pays for delivery and planting at cost. This guarantee does not cover losses due to droughts, storms, severe winters, insect injury, disease, or other factors beyond our control. Should we not have the same plant in stock, we reserve the right to substitute the nearest variety and size of equal value. We do not guarantee plants transplanted from one location to another on customer's property.

As there are many factors beyond our control after plants leave the nursery, we cannot be wholly responsible for losses. Once a plant is on your property we lose control over it, so, since your care will largely determine whether it lives or dies, we feel that you should assume part of the responsibility in the event it dies. However, during our many years in business here, despite serious droughts and other adverse weather conditions, we were called upon to replace less than 1% of the many thousands of trees and shrubs we planted for our customers. Ask us for our latest pamphlets giving complete information on planting and care of trees and shrubs.

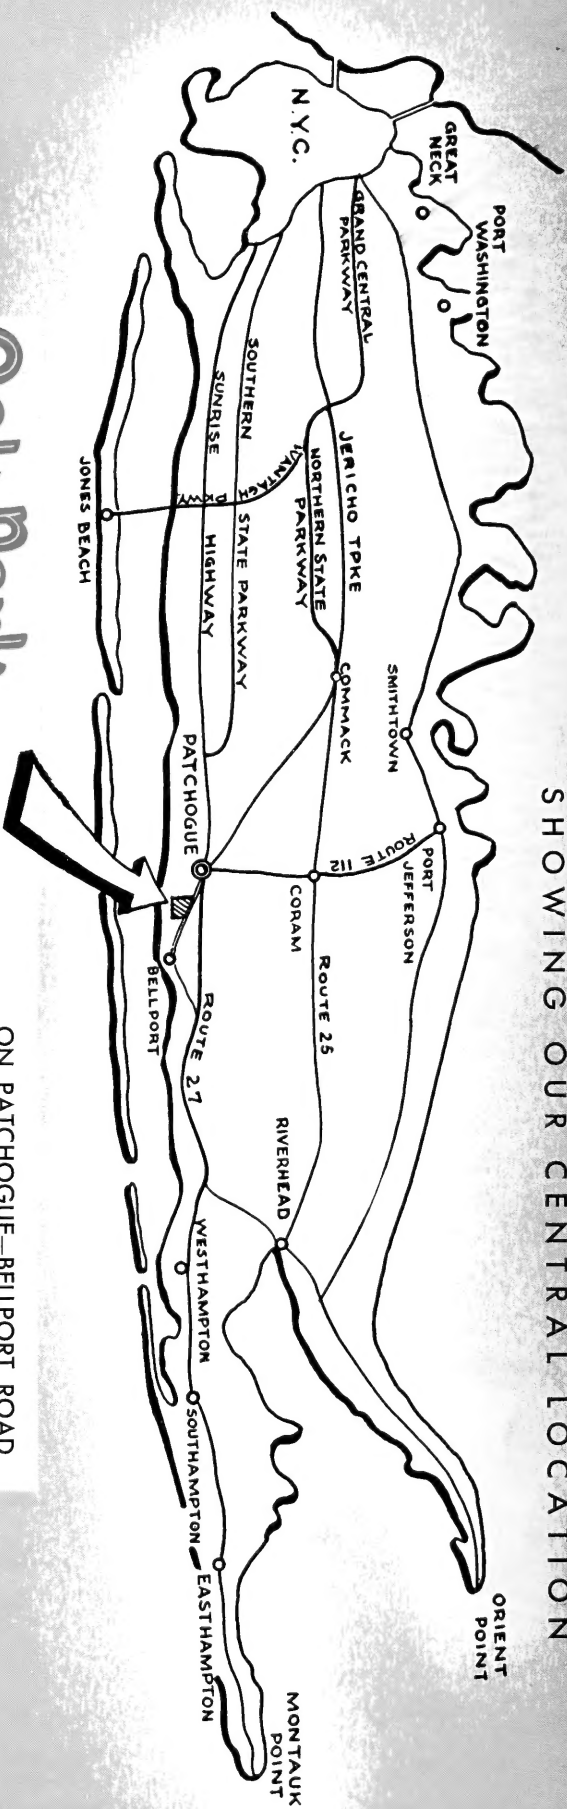

From west end, north shore: East on Northern State Pkwy. or Rte. 25 to Veteran's Mem. Hwy. at Commack, to Sunrise Hwy. (27) at Patchogue. Turn right at temporary end of Sunrise, one mile south to Montauk Hwy. (27A), turn left at Safeway supermarket. Turn right on S. Country Rd. toward Bellport at first traffic light at fork. Two miles ahead on right.

From west end, south shore: Sunrise Hwy. all the way or Southern State Pkwy. to Sunrise at Babylon. Stay on Sunrise to temporary end. Follow above directions.

From east end, north shore: Rte. 25 to Riverhead, Rte. 51 to Rte. 27 at Center Moriches. West (right) on 27. At Brookhaven turn left on S. Country Rd. to Bellport. Two miles west of Bellport on left. **OR:** South on Rte. 112 to Sunrise Hwy. north of Patchogue. East (left) to temporary end of Sunrise. Follow above directions.

From east end, south shore: Rte. 27 to Brookhaven. Follow above directions.
